BS	Bioprocess Associate Manufacturing Associate Manufacturing Technician Process Development Associate Production Associate
MS	Manufacturing Engineer Process Development Associate Process Development Scientist
PhD	Bioprocess Scientist Process Development Scientist

Quality Control & Analytical Development

BS	Analytical Associate Analytical Chemist QC Analyst QC Microbiologist Quality Assurance Associate
MS	Analytical Scientist QC Scientist
PhD	Analytical Development Scientist Scientist

Applications & Technical Sales

BS	Inside Sales Representative Product Specialist Sales Development Representative Technical Sales Associate
MS	Applications Scientist Field Applications Scientist Technical Sales Specialist Technical Support Scientist
PhD	Applications Scientist Field Applications Scientist Scientific Product Specialist Technical Applications Scientist Technical Sales Specialist

Consulting

BS	Business Analyst Consulting Analyst Life Sciences Analyst Research Analyst
MS	Associate Consultant Business Analyst Life Sciences Analyst Research Consultant
PhD	Associate Consultant Life Sciences Consultant Scientific Consultant Strategy Consultant

Tips

Try title modifiers such as *Associate* and *Senior*. Titles containing *Senior*, *Lead*, or *Principal* usually require additional experience. Titles also vary significantly by company and industry, and the same title may represent different education and experience levels. Use this list as a source of search keywords rather than a strict career ladder. Always review the responsibilities and minimum qualifications on each posting.
